ESPECIAL COLECCIONES COMPLETAS N.º 9

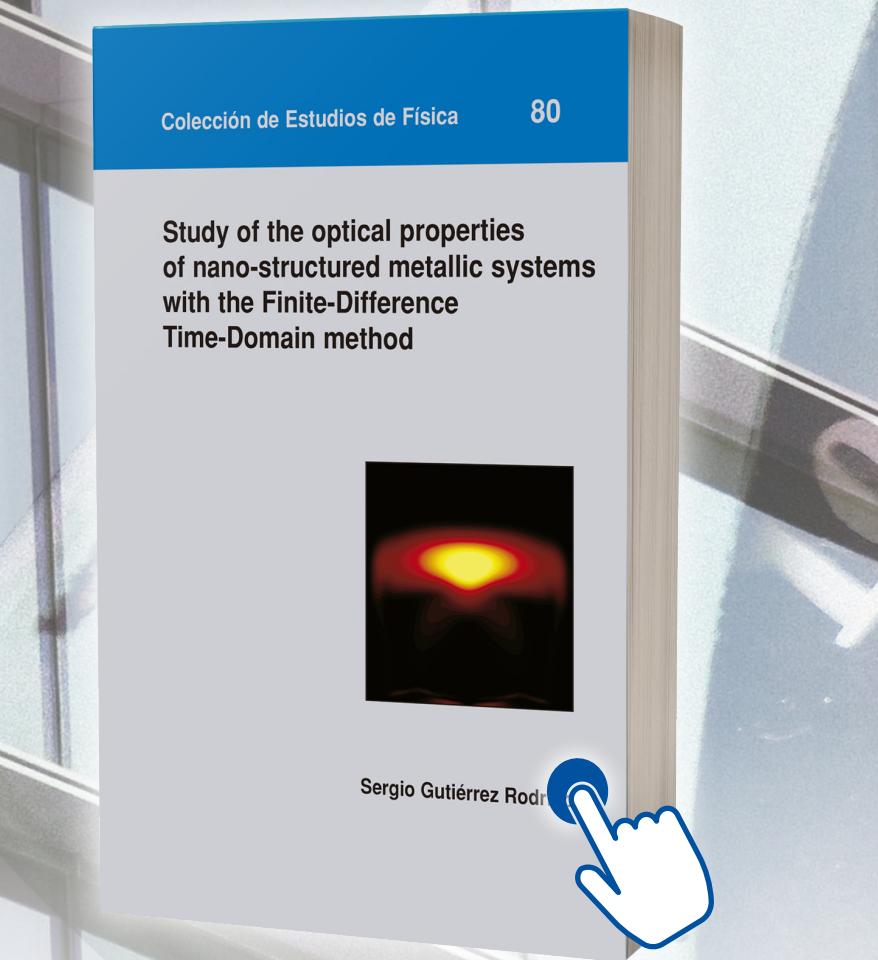

Colección de Estudios de Física

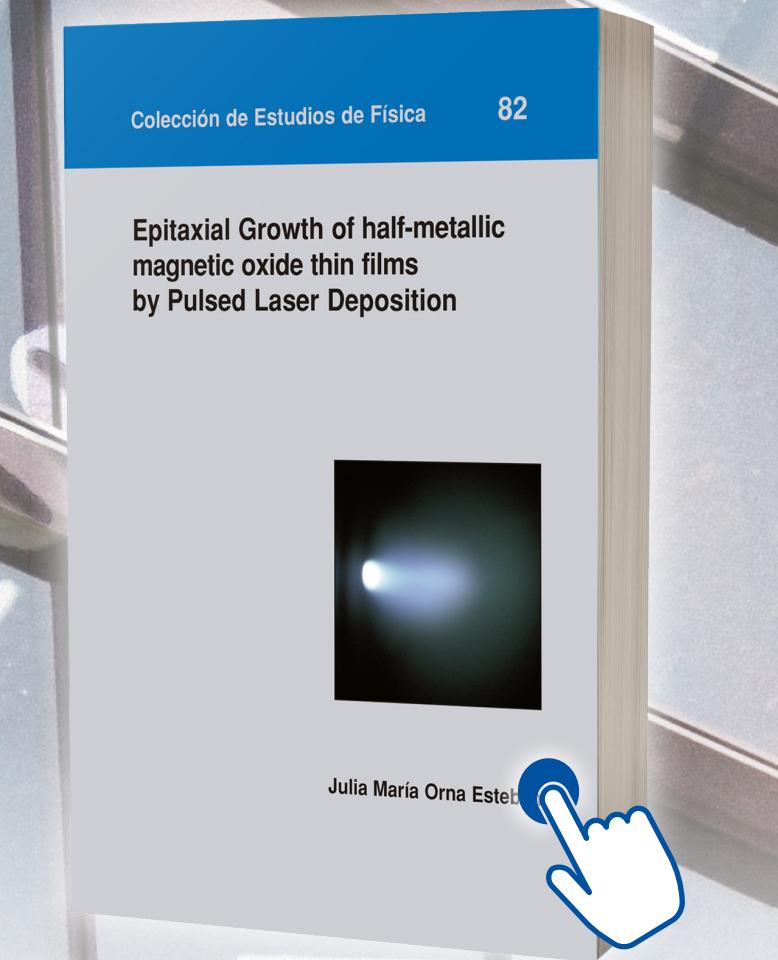

Estudio mediante
espectroscopia Raman de
la serie de semiconductores
tetraédricos $Zn_{1-x}Mn_xGa_2Se_4$

Electrical conduction
and magnetic properties
of nanoconstrictions and
nanowires created by
focused electron/ion beam
and of Fe_3O_4 thin films

Study of the optical
properties of nano-
structured metallic systems
with the Finite-Difference
Time-Domain method

Epitaxial Growth
of half-metallic magnetic
oxide thin films by
Pulsed Laser Deposition
